📍 Yogyakarta, Indonesia

## SUMMARY

An experienced and dedicated programmer with over 4 years in the field, skilled at meeting deadlines, delivering high-quality work, and quickly mastering new technologies. A strong communicator and collaborator with excellent problem-solving abilities, passionate about developing impactful software.

## EXPERIENCE

### Frontend Engineer

12/2022 - 06/2025

PT. Privy Identitas Digital ↗

- Developed and maintained an API Playground web for testing endpoints.
- Managed the OAuth website for single sign-on and login tracking.
- Developed a document signing application and a CMS to track document logs.
- Managed a web-based employee request system for document uploads and dynamic form submissions.
- Built plugins and add-ins to support the document signing flow from third-party platforms such as Google Docs, Microsoft Word, and Dropbox.
- Integrated a payment gateway from the frontend side to support seamless transactions.
- Handled a document signing dashboard for a government program in collaboration with the Ministry of Education and Culture of Indonesia, tracking the full signing flow—including user registration, document signing, and payment—for over 1,000 teachers per month.

### Frontend Developer (Freelance)

09/2020 - 07/2023

PT Vodjo Teknologi Indonesia ↗

- Built and maintained CMS websites with features such as user management, content management, real-time chat, and item management.
- Developed an e-commerce platform for camping equipment with dynamic item configurations (e.g., color and add-ons) and integrated payment functionality.
- Created and maintained a logistics web application to track shipments and estimate delivery fees.
- Developed an internal platform for a beauty clinic and pharmacy brand to manage operations including user management, product inventory, purchasing, and stock control.
- Built a CMS for a petrochemical company to handle internal operations, client feedback and complaints, and scheduling for routine monitoring.
- Engineered a warehouse management system to support internal logistics, including inventory tracking, order handling, and operational task management.

## EDUCATION

### Information System

09/2017 - 04/2022

State Islamic University of North Sumatera - Bachelor's degree

Bachelor's Degree with Cumlaude predicate (GPA 3.84)
